plots and freshness of youth. Thin natt and Louisville. bair is thickened, falling hair checked, Puttmen Steeping and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and change ducayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing norther oil nor dyo, it does not soil white combine, and yet lasts long on the hour, giving it a rich, glossy lustre, and a grateful perfume.

TAKING A VOTE.

From the Detroit Free Press. As a train on the Lake Shore road was coming into Detroit the other day, a long-goared man, who had been sleeping for two or three hours, suddenly nwoke, rose up, and after a yawn and a stretch he took his plug hat in his hand, held it out to one of the passengers and remarked:

"Less vote on Beecher."
"Oh, go to thunder!" growled the

The tall man tore five or six leaves from his memorandum book, wrote "innocent" on some and "guilty" on the others, and started down the nisle. "Madam," he said, as he approached the nonrest lady, "I'd like to have you vote one of these tickets. Vote just a your conscionce dictates, madam.

She refused to vote, and he dropped ballot marked "innocent" into the hat and passed to a man, who, overcome by the heat, had fallen asleep. "Here! you—what do you think of Boocher?" he asked, shaking the sigop-

"Durn you, sir-durn you!" reared

the man as he sat up.
"Which way do you vote?"
"G'way from me or I'll mash the op of your head down on to your collar bone !" yelled the aroused sleeper,

lifting his big red fist. The ballet box man passed to a boy "Bub, what do you think about Beacher ?" "I dunno," replied the boy, "father

said he'd lick me if I said anything about it." Moont it."
A ballot of "guilty" was dropped into the hat, and the man passed down to a dreary looking old clup who was rolling a bit of plug tobacco under his

tongue. "Woll, old friend, what do you think of Beecher ?" was the inquiry.

The dreamy chap got up, tossed his quid out of the window, and eatily took the envisage by the thront and iammed him over a seat and hit him twice on the chin. It was all over before anybody could interfere, and as he resumed his seat, he looked back at the canvasser, who half stunned, was gazing around in the greatest astonishment, and remarked :

"I promised my dying wife I'd lick the next man who said Boocher to mo, and now you keep away !"

The canvasser pushed the dents out of his plug-lat, borrowed a pin to mond around his throat, and sat down and fell into such a train of reflection the pound boy had to speak to him four times before he was aroused.

THE MENNONITES IN HUNGARY.

A new variety of Monnonite, or con-tinental Quaker seet, is gaining ground in Hungary to such an extent that it threatons considerable embarrasement to the administration. These so-called Nazarones not only disown all clerical organization and rofuse to take anv oath or enter any military service, but they dispute the lawfulness of taxes that go to support a state or army. All assessments made on them are therefore levied under protest. They are said to be an off-shoot of Calvinism, but have of late been largely recruited from among the working Catholic population, so that their numbers, celimated a few years since at six thousand only, are now officially stated at thirty thousand, and said to be really much larger. They are the more difficult to reckon up, inasmuch as they decline to register themselves as of any church at all, thus flying in the face of the Hun-STATE OF ILLINOIS, ses

THEODORÉ TIATOR is engaged in writing a novel. His eldest daughter, Florence, teaches school in Brooklyn together again. In Brooklyn anything is possible,

Tur remains of three ex-Presidents rost in Tonnessoo-Andrew Jackson, James K. Pulk and Andrew Johnson Fivo - Washington, Jefferson, Madi son, Monroo and Tylor-repose in Virginia; two-John Adams and John Quincy Adams-in Massachusetts; two -Van Buten and Fillmore-in New York, William Henry Harrison, in Ohie; Zachary Taylor in Kentucky; tary of, and all about the association, Pierco in New Hampshire; Buchman and it is his "put in." in Poinsylvania; and Abraham Lingoln in Ulipois. In all we have had eighteen Presidents - filling twenty-two Presidential terms of four years each -of whem only the present incumbent sur-

Tue commission of six architects and the city engineer, appointed by the Mayor of Chicago to examine the Cus tom-House foundations in that city, have performed that duty and submit ted their report. After thoroughly examining the buildings, its foundations and the substrata underlying the same, they unanimously report : First-That there is no evidence of weakness or instability in the present structure. Second-That the foundations me sufficient, with certain presentions, to car ry the lead contemplated by the design Third-That the Buena Vista stone, carefully solucted, will be as durable as any sandstone that can be obtained, As these architects had no inducement to make any but an impartial report, it would appear that the great clamer heretofore raised in this matter has been purpose.

Or all the catchwords now so indus-

triously used by the communists and demagogues to win attention and applause, none is more effective than that of "monopolies." The fact that no one person in a thousand knows what the word monopoly means, or stops to effective. Indeed, it is probable that a majority of the blatherskites who use the word are utterly ignorant of its proper signification. They belong to a class of agitators who use words with much greater freedom when they do not know their meaning, and whose stock in trade consists of second-hand ideas tricked out in slop-shop phrases Such communists as Dick Trovallick and such demagogues as Samuel F. Cary, both of whom are making speeches in Ohio in support of the Democratic party, delight in the use of this phrase. "Down with the national bank monopolies-down with bondphrases with which those political mountebanks fire the Domogratic heart and tickle the cars of the groundlings What do they care that there is no such thing as a monopoly in this country? What do they care that national banking is open to all, and that not a banker in the United States is accorded any privilege which any other citizen that bond holding is honorable, in that it represents industry, thrilt, economy, ones-what do they care that these "bullionists" represent the honor, the honesty, and the plighted faith of the government, while such as they are clainering for a further depreciation of injury. the currency, a virtual repudiation of the government promises, a division of property, and a general debinchment of public and private merals? Their business is to mislead not to instruct, to deceive not to enlighten, to be not to speak the truth. CHOICE LITERATURE.

It always gives us pleasure to lay before our readers any choice morsel of current literature, and with this end in view we copy the following, from the Decatur Teibune of yesterday: The Republican doesn't seem to

cnow when or where the "regular juarterly meeting" of the farmors and aborers' association was held; we can't help its ignorance; and we don't see any of the Arpublican's business how he got it on, whether by cable, or whether he left it, -it's editor is not Mr. Pi's guardian in any sense.
